2018 SUMMER INTERNSHIP (Long Beach)

Designory - Long Beach. Temporary, Internship this is a paid internship, flexible with summer schedules (depending on needs of the department), and open to current and recent graduates interested in joining the marketing/advertising industry. Designory is looking for summer interns to join us from June through August to support teams with client work and learn about agency and advertising life! You'll participate in an intern presentation series from some of the best-of-the-best, during which you'll learn about the work they produce, behind the scenes content, as well as their personal stories of what lead them to their given disciplines. We'll also have workshops and open hours to help you with career planning, as well as outings to not only expose you to our company culture, but the culture of our beloved Long Beach, as well. You'll be able to join company social activities, and have the opportunity to have conversations with people from all walks of life across the agency! We are looking at interns in the below areas (list subject to change): Creative/Visual/Graphic Design. Project/Account Management. Post Production. Studio Production. Search Engine Optimization. Concept and design compelling product stories to be applied to print and digital mediums. Art Directs photo shoots, film shoots, editing, and illustrations. Client presentations. Collaborate with Project Management, Production, Art Buying and Studio to achieve the best solutions for assignments. Produces comps/betas/storyboards for client presentations. Apply design (GUI) to wireframes and/or concept sketches. Keeps current on design/production trends, materials and developments. Project Management, Account Management, Post Production: Confidently motivate and influence cross-discipline teams while coordinating the execution of work across Account, Strategy, Creative, and Technology departments. Support Project Management Team in development/tracking of project schedules and estimates, monitoring project scope, invoice tracking and account billing. Responsible for job information, estimates, and purchasing requests as well as maintain organized records of all requests and production of billing information as needed. Ability to take complete ownership of multiple projects and multi-task with minimal oversight. Work collaboratively with Retouching/Studio and Art Producers. Studio Production: Creates all digital files commensurate with print-ready quality in accordance with company standards. Prepares files for use in print, digital offerings and online content. Creates and uses style guides and layout templates. Responsible for maintaining company standards through the life cycle of a project, including files, relevant support files and folder-structure integrity across all account(s). Reviews layouts and corrects errors. Prepares boards and comps for presentations. Designs some projects on an as needed basis with direction from Creative Department. Daily organization and status reporting of all projects. Studio Production: Assist with the agency's existing search marketing business. Work with agency search team to ensure on-time deliverables. Update SEO content via CMS. Assist in the development of search marketing strategic roadmaps. Collect quantitative and qualitative data from search, social and video campaigns. Perform market analysis and research on competition. Support the search and optimization team in daily administrative tasks.
