PRODUCTION COMPANY SUMMER INTERNS

GUNZ Projects - Los Angeles. P/T, Temporary, Internship Flexible start date. College credit.

Fresh perspectives and hustlers, go-getters with great work ethic who aren't looking for an internship because it's what they're "supposed to do." Didn't go to film school? Fine with us.

We're looking for creative and bold minds. This internship includes a strong educational component. We'll teach you the industry standards (phone protocol, covering desks, etc.) and we'll teach you how to evaluate material and hone your creative skills. Interns are invited to participate in weekly staff meeting where we discuss creative on our projects and company strategy, so you'll get insight on the bigger picture. We're running production and post-production on the docs and short form content out of our downtown space, so you'll be able to make the rounds and get exposure to all of it. We don't expect you to know what you want to do in the business just yet. But knowing that you want to be in it is a good start! Most importantly, we want to bring on a mix of people who are out-of-the-box thinkers, have good taste & strong writing and research abilities. We want to bring in people who read for fun, love music and art, have unique hobbies, etc. Build motorcycles in your spare time? Majoring in astro-physics? Are a part-time tattoo artist? Awesome. Again- fresh perspective, creative minds.

If you have a resume to send, great (even if the jobs seem irrelevant)! If you don't, that's OK too. Either way, write us a letter telling us about yourself and why you want to work in film/TV. We want to get to know you, so make it as personal as you see fit. Additionally, please answer the questions below: 1. What are you reading these days? Can be fiction or non-fiction. All is good! 2. What are 5 songs you're playing non-stop right now? 3. What movie(s) have you seen that you wish you could have been a part of making? 4. What is your favorite comedy TV show & favorite drama (neither has to be current)? 5. If you could spend one day with someone, alive or deceased, who would it be and why? 6. If you found out you had one year to live, what would you do? 7. Where would you most like to travel to, and why? 8. What is something people find most surprising after meeting you? 9. What do you do in your spare time? 10. Of the 2017/2018 films you've seen, which did you find to be most overrated and underrated? Go to:
